I. GENERAL INTRODUCTION

A. PURPOSE AND SCOPE

The Provincial Archives of Alberta Subject Headings (hereafter referred to as PAASH) was first developed in 1982 in order to provide a standard indexing vocabulary to be used in the preparation of indexes for all types of archival holdings, both audio-visual and textual. The subject headings were developed by a committee of three representing the Provincial Archives of Alberta sections responsible for manuscript, government and audio-visual records. In preparing the list, the committee based its decisions on the need to index material known to be in the Archives holdings already, but also tried to anticipate needs and include headings that may be required at some future date. PAASH was revised in 1998, 2005, and 2020.

Researchers must be aware that JUST BECAUSE AN ENTRY IS INCLUDED IN PAASH DOES NOT MEAN THAT THERE IS MATERIAL IN THE PROVINCIAL ARCHIVES OF ALBERTA RELATING TO THAT ENTRY OR TOPIC.

The format of the entries and the use of subdivisions and pattern headings are explained in detail below. It is hoped that this indexing vocabulary will provide subject indexing that is meaningful and relevant to the holdings of archival institutions throughout the province.

Please note that PAASH was designed for subject analysis of archival collections. For imprint material/books the indexer should consult the Library of Congress Subject Headings (LCSH).

B. REASONS FOR SUBJECT ANALYSIS

In larger institutions, the collections are more extensive and become increasingly complex with diverse subject areas. Each archivist cannot be expected to remember everything in the holdings; therefore, it is necessary to have subject access. With a subject catalogue, any collection can have many access points without destroying the original order of the documents or the integrity of each collection.

C. OBJECTIVES OF SUBJECT HEADINGS

Subject headings enable a person to locate an item/collection of which the subject is known. They collect together in a catalogue what a repository has on a given subject and on related subjects.

D. STEPS IN SUBJECT ANALYSIS

1. Look over/analyse the contents of the collection/documents/tape/photograph, etc. to be indexed.
2. Select the content considered sufficiently significant to be recorded.
3. Translate it into the indexing language (i.e. PAASH).
4. Create the index (physical form).

It must always be remembered that subject, title, creator and physical form are three distinct concepts. For example, if you are indexing a wedding invitation the subject (i.e. what it is about) is not "wedding invitation." That is its physical form. The subjects are the people involved and "Weddings." While there are exceptions, always consider the content first. Generally, the researcher is looking for information about a particular subject. Although they may ask for a wedding invitation, they are probably more concerned with who was getting married. Even if they are concerned with wedding invitations in general, such items will be retrieved under the subject "Weddings."
E. RELATIONSHIP TO OTHER SUBJECT AUTHORITIES

Initially, every effort was made to conform to the LCSH and its format; however, certain deviations are necessary because LCSH was not sufficiently detailed to adequately describe material relating to Western Canada in general, and Alberta in particular. In a few cases, appropriate headings were found in Canadian Subject Headings (CSH); however, CSH was, in most cases, equally inadequate for Western Canadian needs. In some cases, patterns and formats were derived from Anglo-American Cataloguing Rules (second edition) hereafter referred to as AACRII, as well as part two of Rules for Archival Description (RAD). The 2020 revision departed from LCSH, AACRII, CSH, RAD and other subject authorities in an effort to best capture contemporary language and terminology and to make PAASH as accessible as possible.

II. INTRODUCTION TO THE SUBJECT HEADINGS

A. INDEXING TERMS USED

USE: indicates the preferred subject heading.
UF: Use For; indicates a subject heading that is no longer used.
NT: Narrower Term; indicates a sub-heading to be used in conjunction with a main subject heading.
RT: Related Term; indicates a subject heading that might be used together with the selected heading.

B. GEOGRAPHIC SUB-HEADINGS

Geographic sub-headings may be added to any subject heading, e.g. Actors – Edmonton.
C. SUBJECT HEADINGS

Abattoirs
   USE Slaughtering and slaughter-houses

Abduction

Ableism

Abnormalities, Human
   USE Congenital defects

Abortion

Abused women
   USE Domestic violence – Women

Academic Degrees
   USE Degrees, Academic

Accident Insurance
   USE Insurance, Accident

Accident Investigation

Accidents
   RT Traffic accidents
   RT subdivision Accidents under types of industries and under topics where phrase headings for accidents have not been established, e.g., Coal mines and mining – Accidents
   NT Investigation
   NT Prevention

Accountants

Accounting
RT subdivision Accounting under topics, e.g., Dairying–Accounting and under names of individual corporate bodies

Acid precipitation
   USE Weather – Acid rain

Acquired immunodeficiency syndrome (AIDS)
   NT Social aspects

Acrobatics

Acrobats

Actions and defenses

Activated carbons
   USE Carbon, Activated

Activism and activists

Actors

Actresses
   USE Actors

Acts, Government
   USE Legislation

Administration of estates

Administrative agencies
   NT Reorganization

Administrative Services
   NT Reorganization

Adoption
Adult education
   USE Continuing education

Advertising

Advertising, Government
   USE Government – Advertising

Advertising agencies

Advisory opinions

Aerial photography

Aeronautics
   USE Aviation

Affirmative action programmes
   USE Employment equity

Afghan War, 2001-

Aged
   USE Seniors

Agoraphobia
   USE Mental health – Phobias

Agricultural insurance
   USE Insurance – Agriculture

Agricultural service board

Agriculture

      USE Anglican Church of Canada – Conventions
   NT Theology
   NT Universities and colleges

Anhydrous ammonia
   USE Ammonia
Animal diseases
   USE Animals – Diseases
   RT Veterinary medicine

Animal shelters
   UF Dog pounds
   UF Pounds

Animal traps
   USE Trapping and trappers

Animals
   NT Diseases
   RT Veterinary medicine
   RT subdivision Diseases under individual animals and groups of animals

Animals, Domestic
   USE Domestic animals

Animism and Animists

Annexation (Municipal Government)

Anniversaries

Antelopes

Antennas (Electronics)

Anthropology, Cultural

Anthropology, Physical

Antique and classic cars
   USE Automobiles – Antique and classic cars
Antique dealers

Antisemitism
   RT Racism
   RT White supremacy

Antiwar movements
   USE Peace movements

Apartments
   RT subdivision Apartments under names of communities

Apiculture
   UF Bee culture
   RT Bees
   RT Honey

Appeals in forma pauperis
   USE Legal proceedings – Appellate procedure

Appliance stores
   USE Stores, Retail – Electric apparatus and appliances

Appliances
   USE Electric apparatus and appliances

Appraisers

Apprentices

Aquatic herbicides
   RT Herbicides

Aqueducts

Arab Canadians
   Use specific nationality when possible, e.g. Syrian Canadians
Arabs
   Use specific nationality when possible, e.g. Syrians

Arbitration, Labour
   USE Labour relations – Arbitration

Arcades

Archaeological excavations
   USE Archaeology – Excavations

Archaeology
   NT Excavations

Archery

Arches

Architects
   RT Architectural firms

Architectural firms

Architectural models

Architecture

Archives
   RT subdivision Archives under subjects, e.g., Universities and colleges – Archives

Archivists

Arctic regions

Arenas
   USE Sports facilities
Armistice Day
Use for commemoration of the end of the First World War on 11 November from 1918 to 1930.
RT Remembrance Day

Armour

Armoured vehicles

Armouries

Arms and armour
USE Armour
USE Firearms
USE Weapons

Arms of Alberta

Arms control

Army Cadets
RT Air Cadets
RT Sea Cadets

Armyworms

Arrowheads

Arson

Art
Specify when possible, e.g. Graphic arts, Performing arts, Literary arts, Sculpture, etc.
NT Catalogues
NT Education
